INTRODUCTION

As a Computer Science student, I have honed my ability to adapt to the ever-evolving technological landscape, ensuring success in a dynamic world. My active involvement in various curricular and cocurricular activities has significantly sharpened my leadership, problem-solving, and collaborative skills. I am a naturally curious individual, constantly seeking new challenges and experiences. To me, life is a vibrant blend of work, leisure, and exploration, where we land not just to work but to innovate and drive meaningful change.

OBJECTIVE

I am eager to embark on a career with a reputable organization that offers opportunities to contribute my skills and expertise towards its growth, while simultaneously expanding my knowledge and experience in my field.

EXPERIENCE

JUNE 2023 – PRESENT

VOIP ENGINEER, PREDATOR STUDIOS

As a VOIP Engineer at Predator Studios, I'm advancing my understanding of unified communications technology, focusing on mastering key VOIP protocols and SIP trunking. This experience further sharpens my adaptability and technical prowess, ensuring that I am well-prepared for the evolving demands of the networking sector.
